

# Moiwana Community v. Suriname

## I. COMPLIANCE AND FOLLOW-UP ADDENDUM<sup>1</sup>

**November 21, 2018:** The Court decided to continue monitoring the implementation of five remaining reparation measures.<sup>2</sup> Namely, Suriname must: continue investigating and punish those responsible; collect and deliver the remains of the Moiwana community members who were killed and turn them over to the surviving family members;<sup>3</sup> restore property rights to the traditional lands of the Moiwana community;<sup>4</sup> guarantee the safety of any Moiwana community member who chooses to return to the village of Moiwana;<sup>5</sup> and create a fund for community development.<sup>6</sup>

The Court emphasized that Suriname must immediately and effectively carry out all actions needed to comply with the five outstanding measures.<sup>7</sup> The Court also noted that the President of the Court could visit Suriname to ensure compliance with the necessary reparation measures and obtain information from the parties directly.<sup>8</sup> The State was required to submit to the Court a report on compliance with the ordered measures by March 4, 2019.<sup>9</sup>
